

EasyLED Aeroform Light Columns AFRBT20 & AFSBT20

PRODUCT OVERVIEW

The EasyLED Aeroform 12-foot Light Columns provide contemporary pedestrian lighting and are used to highlight landscape elements or points of interest and direct pedestrian flow. Coordinates with other Aeroform fixtures for a unified site design. Ideal for retail centers, schools and universities, public transit, park walkways and plazas.

LEDicated *SoftLED*

The durable extruded aluminum housing is finished with a weather-resistant textured powdercoat finish providing years of service. The low-glare, vandal-resistant UV-stabilized polycarbonate LumaLens produces a Type V distribution and protects the internal components. Available with 12-25 Watt EasyLED arrays in three color temperatures (3000K, 4000K and 5000K), which produce up to 3,320 delivered lumens. A heavy-duty decorative cast aluminum clamshell base hides mounting hardware and is finished with the same durable powdercoat finish.

CONSTRUCTION

Durable extruded aluminum

Polycarbonate low glare SoftLED LumaLens

Stainless steel hardware

EFFICACY

Up to 122 lumens per watt

Excellent thermal management for LED longevity

DRIVER

1-10V Dimmable Driver

120-277V or 347V, 50/60Hz

2kV Surge Protection Standard

APPLICATIONS

Park Pathways

Walkways

Parks

Plazas

Landscaping

EXTRAS

Heavy-Duty Decorative Clamshell Base Cover

Catalog Number: AF♦BT20QF1X25U*KLB (♦R=Round, S=Square, *3K, 4K, 5K)
