

EasyLED Round Light Column B8T

PRODUCT OVERVIEW

The EasyLED 12-foot Light Columns provide contemporary pedestrian lighting with a 50% soft uplight to delineate walls and landscape elements, highlight points of interest, and direct flow. Ideal for retail centers, schools and universities, public transit, park walkways and plazas.

LEDicated *SoftLED*

The durable extruded aluminum housing is finished with a weather-resistant textured powdercoat finish providing years of service. The low-glare, vandal-resistant UV-stabilized polycarbonate LumaLens produces a Type V distribution and protects the internal components. Available with 24-48 Watt EasyLED arrays in three color temperatures (3000K, 4000K and 5000K), which produce up to 5,700 delivered lumens. A heavy-duty decorative cast aluminum clamshell base hides mounting hardware and is finished with the same durable powdercoat finish.
